

Cold Climate Wind Strategic Research Agenda: a Map and Compass for the next decade!

Esa Peltola, Geert-Jan Bluemink Winterwind Open Innovation Contest 6.2.2018 Åre, Sweden

2

I have a task for Us together BUT especially for You

 We think THE WINTERWIND COMMUNITY with the Winterwind10 year anniversary should create and publish a Strategic Research Agenda on Cold Climate Wind

for the coming years in order to

- with a means to follow-up on the progress made.
- WINTERWIND brand would help us to bring this SRA

to the attention of funding bodies (EU) and alliances (IEA and IEC)

06/02/2018

Who would benefit from this?

This is easy: We, the WINTERWIND-community!

- Our community with all stakeholders in the value chain
 - from developers to technology and service providers,
 - from local government to banks, investors and insurance providers
 - In 2018 we look like this ->
- But let's not forget to contact the attendants of earlier Winterwinds, too

Innovation?

Alignment of and commitment to R&D efforts ...

... which results in better R&D projects, leading into bigger improvements and faster road to best practices and standardization.

A good idea?

If yes, so let's take the first steps!

2019

progress
