THE PURPOSE OF THIS SESSION

Strengthen your business and your license to operate.

MINIMIZE YOUR BUSINESS RISKS WITH YOUR OWN BIODIVERSITY STRATEGY

Background; how biodiversity risks impact your business

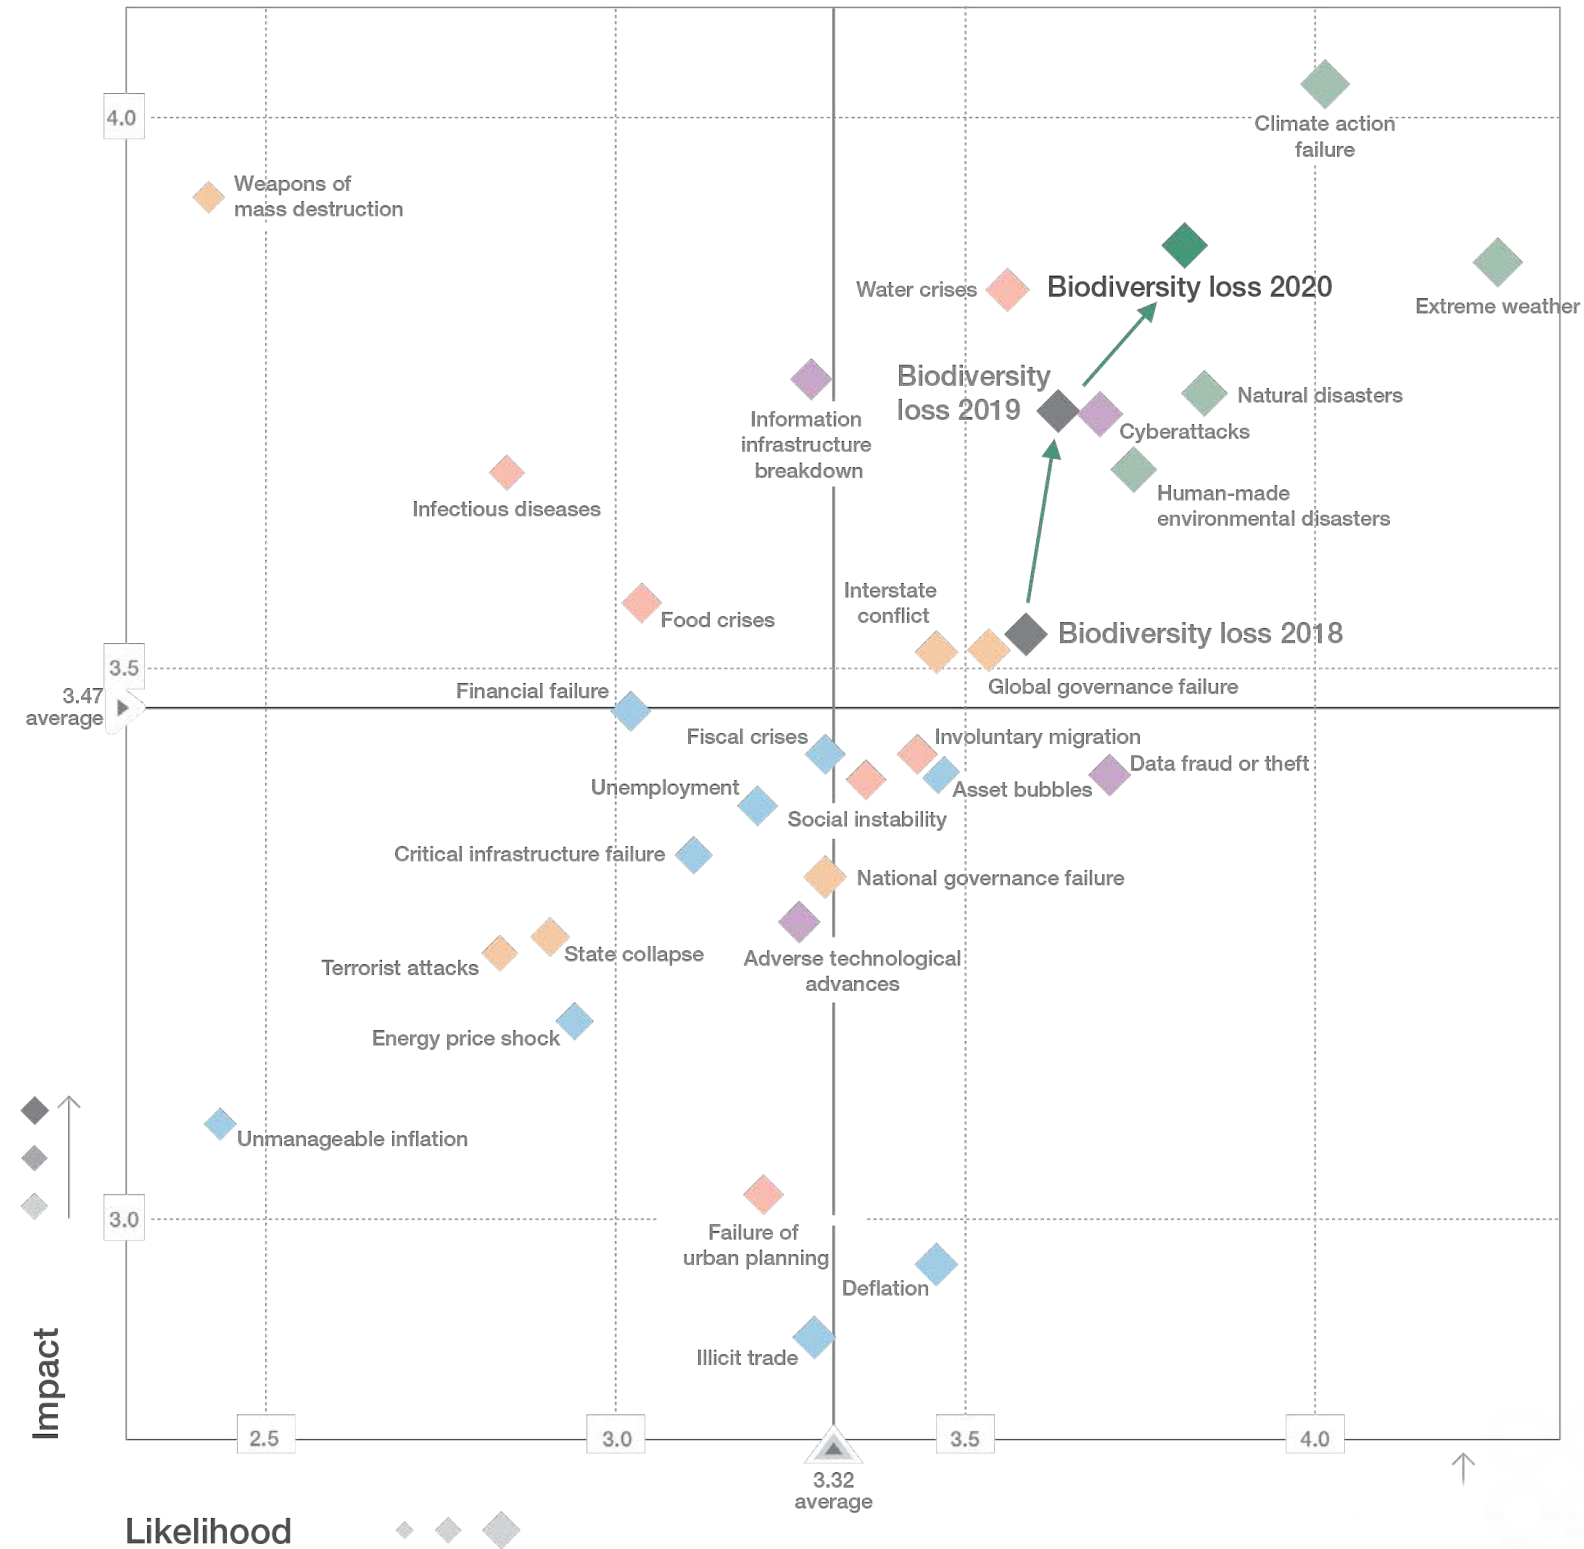

Good examples from influential actors

Short guide on how to get started with risk minimization and
biodiversity strategy

BIODIVERSITY LOSS IS AN INCREASING THREAT

Biodiversity loss is a risk of similar magnitude as climate action failure

MEGATREND

COMPANIES REACHING FURTHER THAN POLITICAL ACTION

Microsoft will be carbon negative by 2030

MEGATREND

COMPANIES REACHING FURTHER THAN POLITICAL ACTION

Blackrock is changing its investment strategy because of climate change

*Sustainability is an oncoming tsunami –
and it's almost here*

Large customers

Financial market

WHY BOTHER?

HOW DOES THIS APPLY TO WIND POWER COMPANIES?

Red listed species often an issue in the permitting process

Risk is a cost, financial institutes are now addressing biodiversity risks

Other industry sectors with a heavy ecological footprint focus on licence to operate. This includes protecting and restoring biodiversity.

WILD CARDS IN THE PERMITTING PROCESS

Birds

Bats

Boazo (reindeer)

ROAD MAP TO BIODIVERSITY STRATEGY

Just get started, set a target

Build biodiversity into existing processes

Always apply the mitigation hierarchy

Appoint professionals

Deliver multiple objectives

Engage your stakeholders

Communicate your biodiversity effort

MEGATREND

COMPANIES REACHING FURTHER THAN POLITICAL ACTION

Allianz capital partners - Eliminate the risk and secure the investment

The steel industry strives to become an even stronger player in the transformation towards a sustainable society, and to take greater responsibility for people and the environment. The UN's global goal for sustainable development is a guiding principle for the steel industry

FORTUM – INITIAL BIODIVERSITY CHECK

CONCLUSION

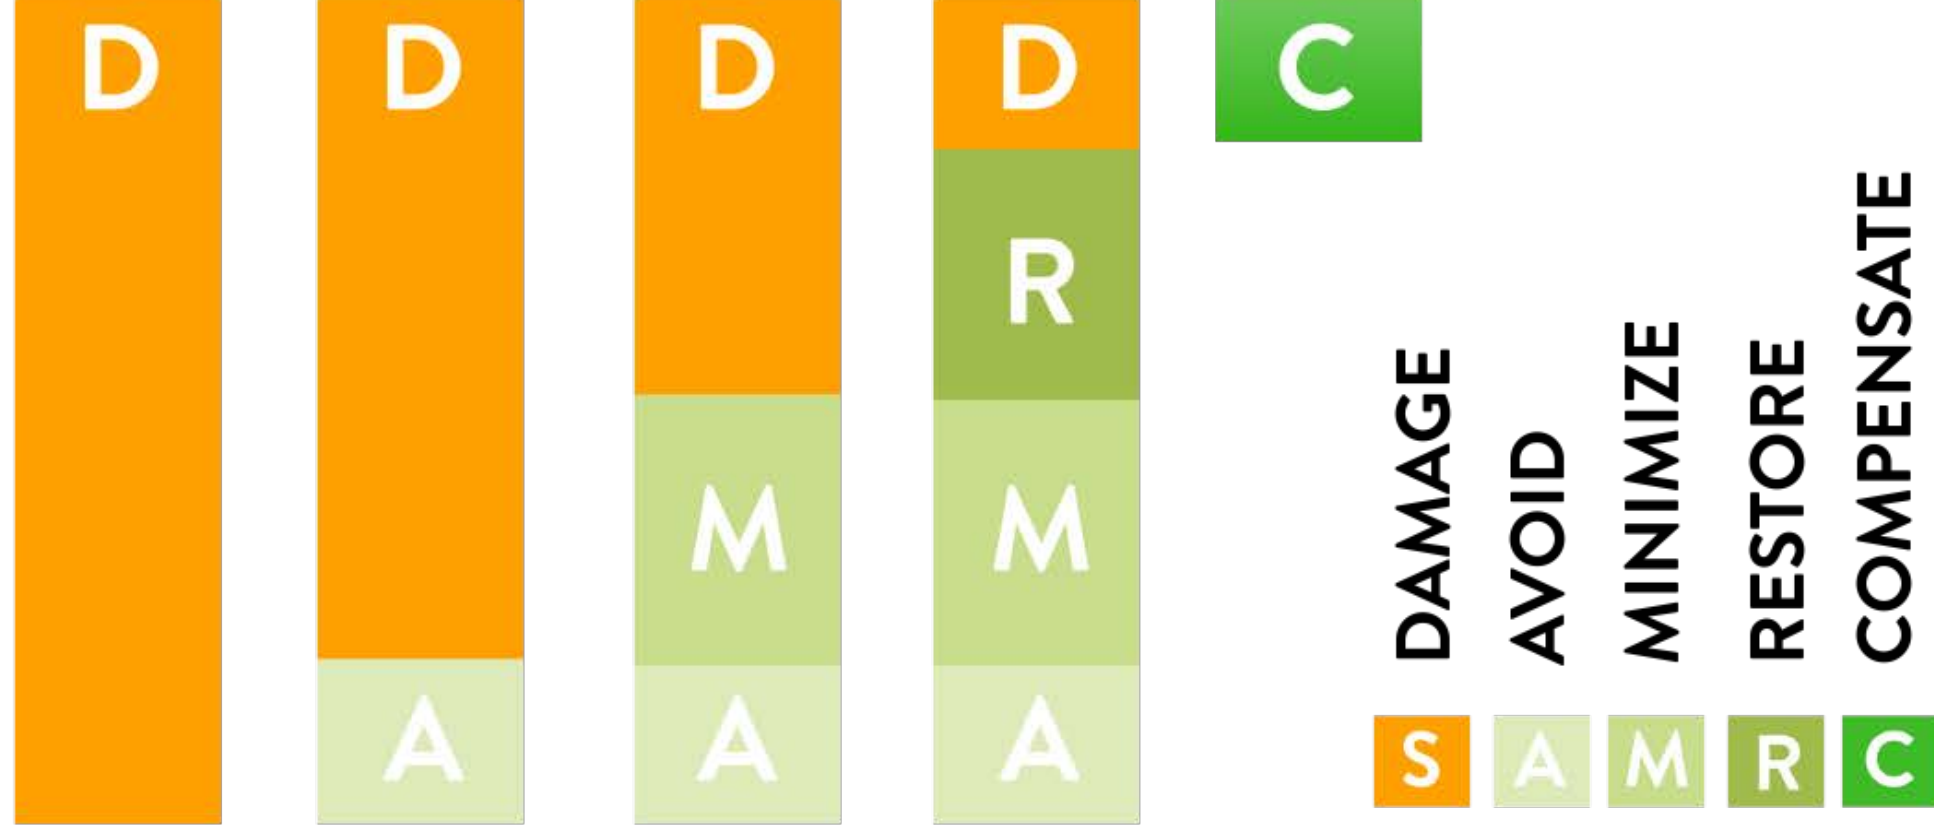

Wind power industry is greatly surpassed by other sectors when it comes to biodiversity.

Wind power industry is a part of the solution in climate action.
It's time to step up when it comes to biodiversity too.
