

Winterwind 2022

Jeanette Lindeblad | Chairman of the board

Welcome to lovely Skellefteå!

The conference takes place in **Skellefteå**, this is where to be when it comes to the new industrialization with massive investments in electrification, hydrogen production, battery production, fossil-free steel and more.

The international Winterwind conference has after **14 years** evolved into a shared experience arena where industry and science meet to improve utilization of **wind energy in cold climates**.

Winterwind

INTERNATIONAL WIND ENERGY CONFERENCE

#Winterwind2022 - challenges the industry to put main focus on validation!

INFORMATION & PROGRAM

Skellefteå, April 19th-21st 2022

Winterwind

INTERNATIONAL WIND ENERGY CONFERENCE

Improved ice detection
New guidelines and AI solutions

Data modeling
Assessing energy exchange and icing losses

From racing cars to de-icing
Swedish inventor finds new solutions
